ABOUT THE PRODUCT

Introducing Wonderm, the innovative body skin treatment from TWINE Medicals that revolutionizes the concept of bio-tightening.

Recognizing the complexity of skin health challenges, our medical team identified issues such as oxygen deficiency, oxidation, PH imbalances and collagen weakening affecting various skin areas. Confronted with these complex problems, TWINE Medicals dedicated to discovering extraordinary solutions, embarked on a meticulous examination. In pursuit of a wonderful formula, our medical experts delved into the profound impacts of these factors on the skin, paving the way for the development of Wonderm—a groundbreaking body skin treatment that addresses these challenges effectively.

MoMed
SKINCARE

www.momedskincare.com

To address and prevent these comprehensive skin problematics, Wonderm boasts a groundbreaking **formulation of high-level boosters, such as Succinic Acid, Hyaluronic Acid, Pyridoxine** and more. This super-rich blend nourishes the skin, restoring dermal equilibrium and promoting a healthy, tightened appearance.

The exceptional nutrient composition ensures optimal hydration levels and boosts the skin's elastic factor. With ingredients like **PDRN, B-group vitamins and Amino acids**, Wonderm guarantees long-lasting results. It not only serves as a vital source of nutrients for the skin but also stimulates the formation of new, healthy micro blood vessels, delivering an outstanding lifting effect from the very first session.
